SAFETY, HEALTH, AND ENVIRONMENTAL PROTECTION

Technical safety support iaw. Section 6 ASiG

Protecting employees at work is a top priority. Occupational safety, accident prevention, and human-compatible work design are basic requirements placed on any business. We are therefore keenly focused on providing technical safety support.

Our safety subject-matter experts and occupational health professionals offer the following services in order to prevent accidents and for the ergonomic design of workstations:

Consulting for:

- Technical equipment, operating procedures, and operating materials
- Personal protective gear
- Workstation design, procedures, environment, and ergonomics
- Accident prevention
- Health effects of hazardous materials
- Educational training concerning occupational accident and health risks
- Assistance for preparing hazard analyses

Root cause investigations of occupational accidents and proposals for countermeasures

- Develop/introduce measures for employee safety
- Routine safety inspections
- Participate in occupational safety committee meetings
- Conduct safety committees
- Assistance for educating and training safety representatives
- Occupational safety meetings with factory inspectorate (Gewerbeaufsichtsamt) and Occupational Health & Safety officials (Berufsgenossenschaft).
