

Future-proof plant planning & erection

CONSTRUCTION PROJECT MANAGEMENT

Fire protection concepts

We take a comprehensive approach toward fire protection in order to prevent the inception, spread, and consequential effects of building fires.

We prepare fire protection certifications and concepts in accordance with building code regulations for new construction and for existing buildings. Our services include planning and preparing fire protection concepts, fire protection certifications (in accordance with permit code regulations), emergency exit and rescue route planning documentation, fire protection planning documentation, and fire department deployment planning documentation.
