PROCUREMENT AND MATERIALS MANAGEMENT

Scheduling and provisioning of materials and equipment

Our team of experts ensures that your materials and equipment are available on-time and to-specification.

On the basis of your specifications, our materials management experts procure your materials and equipment as needed for executing specific orders and projects. Our range of services not only includes procurement, but also managing, inspecting, and provisioning materials, allowing us to professionally process any type of order.

Our services:

- Accept specified material demand from customers
- Procure materials and equipment
- Provision at customer's site or in our technical warehouse
- Incoming inspection
- Ensure that all technical regulations are adhered to
- Quality checks
- Storage and administration in our technical warehouse
