

Sustainable growth at the chemical park GENDORF

LOGISTICS

Warehouse logistics

We operate a sophisticated HazMat warehouse with a gross capacity of 39,000 pallet locations and are certified for a wide range of VCI warehousing classes.

Our HazMat warehouse is equipped with the latest security technology and is certified for HazMat storage, without limitation for toxic and highly toxic substances, combustible fluids, and for water hazardous and caustic substances. Our services are rounded out by warehouse sections for temperature-controlled storage (heating and refrigeration) and by good highway connections.

Our services:

- HazMat warehouse for almost all VCI classes, such as
 - combustible fluids
 - water hazardous substances WGK 1-3
 - toxic and highly-toxic substances
 - caustic substances
 - noncritical substances
- Temperature-monitored storage in heated and refrigerated warehouses
- Block and rack storage
- Completion of all labeling, staging, and repacking work
- Intermodal cargo transfer to trucks, containers, and railcars
- The latest interface-enabled warehouse management software
- HazMat labeling and HazMat checks
