

Efficient plant operations & maintenance

## **SHUTDOWNS: PLANNING AND EXECUTION**

## Shutdown planning

Our professionally planned shutdown will reduce the downtime of your plant and help to reduce costs, while also ensuring high safety and quality.

Our understanding of a professionally planned shutdown of process engineering plants is not limited to a sequence of shutdown points. We start by documenting the shutdown points, tap into experience and knowhow, and develop optimized scheduling and cost planning documentation based on these.

## Our services:

- · Document shutdown points in the customer's plants
- · Estimate time requirements per shutdown point
- Determine resource requirements
- · Prepare optimized shutdown planning documentation by taking into account available resources
- Prepare tender-ready documentation
- · Document lessons learned from the shutdown
