

Efficient plant operations & maintenance

MAINTENANCE, INSPECTION, AND TESTING

Technical building infrastructure – maintenance, inspection, testing

Our experts for technical building infrastructure maintenance, inspection, and testing take care of all tasks to ensure the safe and reliable operation of your installations in accordance with the Occupational Safety Directive.

We help you comply with your obligations as the plant operator.

Our services:

- Conduct tests in accordance with Occupational Safety Directive
- Ongoing monitoring of statutory requirements and manufacturer specifications
- Deadline review and monitoring
- Prepare documentation in accordance with statutory requirements
- Test safety-relevant elements of the technical building infrastructure, such as fire safety doors, elevators, gates
- Coordinate and monitor maintenance action plans for identified deficiencies
