High-performance IT security & digital infrastructure solutions

IT CLOUD SERVICES

GENDORF Cloud Migration

InfraServ GENDORF IT Services supports your business with the migration and ensures a smooth transition from your local (on-premise) installation to the cloud and back.

The provisioning and operation of hybrid infrastructures represent new requirements for IT departments. We support you with the validation, implementation, and correct decision about what data need to be stored where.

Our services:

- Migration of IT infrastructure to Microsoft Azure
- Plan, set up, migrate, and operate hybrid infrastructures
- Demigrate the data back from the cloud to a private cloud or the in-house data center
