

High-performance IT security & digital infrastructure solutions

IT CLOUD SERVICES

GENDORF Cloud Application Hosting

You are looking for a professional and highly-redundant infrastructure for your applications with redundant links to the Internet. You need to know where your applications are running.

Do not hesitate to contact us – we ensure flexibility with the greatest possible standardization.

We will install your applications in our ISO 27001-certified datacenters and will make these available for your requirements.

Our services:

- Customized provisioning of resources for operating your applications.
- Operate the provisioned infrastructure as a managed service with defined interfaces to your application
- Concepts for global provisioning of your applications

Your experts

Get in touch with us - we will be happy to advise you.
