

High-performance IT security & digital infrastructure solutions

IT CLOUD SERVICES

GENDORF Cloud Site Recovery

Our IT experts see it as a challenge to protect your mission-critical business data and applications against various types of failures.

We will provide you with the correct sizing – with respect to availability and recovery times. Even today, not every system needs to be available 24-7, but precisely only when it is needed. We will determine the proper scale based on your input.

Our services:

- Custom provisioning of IT infrastructure
- Operate provisioned infrastructure as a managed service with defined service levels
- Joint analysis of business processes with associated requirements definition of IT system availability
