

Subustainable growth at the chemical park GENDORF

SITE RELOCATION AND DEVELOPMENT

Site consulting / relocations

You need to grow? The chemical park GENDORF will grow with you.

Take advantage of the synergies available at a chemical park, the highly-integrated flow of materials and the links into the chemical park network – with expansion opportunities of roughly 50 ha outside of residential areas. We give you competent support for all expansions and changes of your requirements, even including relocating your production to our chemical park. We analyze your requirements for land, buildings, and resources, and will support you during the permitting and planning process as well as during the execution of the construction project.

Our services:

- Requirements analysis
- Site development
- Inventory of fully developed sites and/or operationally ready buildings
- New construction pursuant to customer needs
- Provision/adjust/expand infrastructure based on need
- 360° service for your project implementation (from the planning phase to permitting and implementation)
