

Sustainable growth at the chemical park GENDORF

SITE MANAGEMENT

Site infrastructure

As the operator of the chemical park GENDORF, we make site infrastructure available to you and ensure that it has the availability and functionality to meet your needs.

You require a broad spectrum of infrastructure services to support your production. We make this site infrastructure available at the chemical park GENDORF and ensure its availability and functionality consistent with demand. Centralized and efficient infrastructure operations along with the shared use by all site companies minimizes your operating costs.

The chemical park GENDORF makes the following infrastructure and infrastructure services available:

- Traffic infrastructure (road/rail)
- Electricity and natural gas network
- Utility installations for other energy sources and media (e.g. steam, nitrogen, oxygen)
- Disposal installations (e.g. technical wastewater plants, wastewater treatment, waste incineration)
- Communications networks
- Perimeter security
