

Efficient plant operations & maintenance

MAINTENANCE, INSPECTION, AND TESTING

Electrical maintenance, inspection, testing

Our experts for electrical maintenance, inspection, and testing take care of all tasks to ensure the safe and reliable operation of your electrical equipment in accordance with the Occupational Safety Directive.

We help you comply with your obligations as the plant operator.

Our services:

- Conduct tests in accordance with Occupational Safety Directive
- Ongoing monitoring of statutory requirements and manufacturer specifications
- Deadline review and monitoring
- Prepare documentation in accordance with statutory requirements
- Test, maintain, inspect locally fixed and locally variable electrical equipment, FI safety devices, welding equipment, pressure equipment (such as pressure cleaners), control cabinets, elevators, and gates
- Coordinate and monitor maintenance action plans for identified deficiencies
