

Efficient plant operations & maintenance

MAINTENANCE, INSPECTION, AND TESTING

Calibration, sensors – maintenance, inspection, testing

Our specialists support you in the implementation of maintenance, testing, inspections, and calibration of scales and EMC equipment to keep you in compliance with statutory requirements.

The use of certain equipment obligates the operator to comply with special statutory requirements. We assist you with the selection of scales and EMC equipment, support you regarding compliance with statutory standards as an accredited testing lab, and perform maintenance, inspections, tests, calibrations, and certifications on your behalf.

Our Services:

- Select scales and EMC equipment pursuant to operator specifications, deployment conditions, and standards, while complying with all statutory frameworks such as the Calibration Directive, the Calibration Act, and all national and international standards
- For maintenance, inspections, and tests, including calibrations on the basis of statutory requirements
- Accredited iaw. DIN ISO IEC 17025:2005 as DAkkS-DKD calibration lab pressure, temperature, scales
