High-performance IT security & digital infrastructure solutions

IT CLOUD SERVICES

GENDORF Cloud Virtual Desktop Infrastructure

The virtual solution is gaining ground. Not only service and storage are becoming virtualized, but also desktops and other end-user devices. As a result, you can centralize essentially all administrative tasks on your virtual server.

We are talking about citrix, Vmware, Xen, Wyse und Igel. Take a firsthand look at centralized computing capacity, the simplest possible desktop management, and other benefits of this solution. You can stop worrying about your decentralized data – they no longer exist!

Our services:

- Plan, design, setup, and operate centralized computing platforms
- Migrate from fat client to thin client
- Concepts for global provisioning of companywide software
