

Cross functional operational plant safety

SAFE AND RELIABLE PROCESSES AND METHODS

Safety engineering expert appraisal

We employ experts who are recognized as publicly certified experts pursuant to Section 29b BImSchG (Bundes-Immissionsschutzgesetzes [Federal Pollution Control Act]) and who prepare expert appraisals on your behalf.

Our safety specialists prepare your expert appraisals pursuant to Section 29b BImSchG - either as part of pending permit applications, for regulatory orders, or for determining the root cause of incurred damages.

Our services:

- Coordinate mandated inspection requirements
- Review and verify safety equipment documentation
- Review safety reports
- Assess action plans to prevent property damage and bodily injury
- Support for reducing downtimes
- Review plant safety concept
- Root cause analysis for damage
- Prepare expert appraisals and inspection reports by certified experts
