MEASUREMENT, TESTING, AND MONITORING OF ENVIRONMENTAL REQUIREMENTS

Calibration and function tests

Does the permit approval notification for your plant include the covenant that emissions must be continuously monitored? Then we are the right partner for you.

We are a neutral metrology institute and operate a notified metrology authority pursuant to Section 29b BImSchG (Bundesimmissionsschutzgesetz [Federal Pollution Control Act]), and as a plant operator know the challenges presented by daily operational practices. As a competent partner, we check the installation of metrology equipment to ensure their quality and compliance with standards.

Our services:

- Review proper installation for new installations or significant changes
- Function tests on emissions metrology equipment
- Calibrate emissions metrology equipment
